

Environmental Policy

The Management of NEC Asia Pacific Pte Ltd ("NEC APAC") views the operation of business in harmony with the environment as one of its top priority issues and is committed to reducing the environmental impact of the entire global supply chain and contributing to a sustainable society.

1. We will create social value focusing on delivering ICT solutions and services by leveraging advanced technologies to contribute to their adaptation, and we will contribute to the reduction of the environmental burden on customers and the global environment and to the mitigation of the impacts of climate change.
2. We will assess the environmental impact throughout the entire life cycle of ICT solutions and service development with considerations for reducing environmental burden.
3. We will comply with ISO 14001 standard, environmental laws and regulations associated with our business activities, honour agreements with stakeholders, and strive to conserve energy, save resources, protect environment and prevent environmental pollution caused by chemical substances and waste along the entire supply chain.
4. We will prioritize the procurement of environmentally friendly hardware, software, and services.
5. We will disclose environmental information regarding our business activities, ICT solutions and services to our stakeholders.
6. We will raise the environmental awareness of each and every one of our employees and contribute to the conservation of the global environment through the promotion of climate change action, resource circulation, and biodiversity.
7. We will strive to improve an environmental management system with environmental targets and conduct periodic reviews to realize continual improvement.

This policy applies to NEC APAC and all its activities.
