FOUNDATIONAL SERIES

Enhancing Digital Security

Cybersecurity Capacity Building (Basic)

Overview

Creating a Solid Base for Cybersecurity Tasks

Without a good set of cybersecurity skills, organisations will be unable to develop security processes to mitigate cyberattacks and threats. This course will offer the necessary basic knowledge and skills to carry out advanced and specialised cybersecurity tasks. It is also a pre-requisite course for other specialisation courses.

Fee:
- Online + Hands-on: $1000
- Online Only: $480

Duration:
- Online + Hands-on: 40 Hours
- Online Only: 15 Hours

Who Should Attend:
- IT staff
- Newly assigned cybersecurity staff
- Trainees who intend to take up other specialisation courses

Registration:
For registration enquiries, please email sg_marketing@nec.com.sg

Learning Objectives

Through this course, you will learn the following:

- Knowledge of network protocols and types of cybersecurity threats
- Basic analysis of security operations and network traffic
- Countermeasures and incident response when threat is identified
