

Enhancing Digital Security

# Cybersecurity Training

# Are you prepared to face advanced and sophisticated cyber attacks that may strike at the core of your business?

The need for strong cybersecurity is paramount in today's rapidly digitised business environment. From confidential data storage to payment processing, businesses need to ensure information is not compromised.

However, the nature of cyber attacks is in a constant state of flux, with new exploits appearing on a daily basis. Thus, a robust knowledge of cybersecurity principles is required to fend off cyber attacks and keep your information and systems safe and secure.

## Training Details

NEC realises the social value of strong cybersecurity and wants to orchestrate a brighter world with you through enhancing digital security. That is why we have introduced a series of training programmes to face the ever-growing threat of cyber attacks.

With comprehensive and detailed course materials, trainees are able to acquire the necessary foundational and expert knowledge and skills. Trainees can choose their desired specialisation levels and also gain practical experience in a realistic attack setting with optional hands-on sessions.

## Partnership with LAC

Course material was created in conjunction with LAC, Japan's leading experienced security service providers.

Trusted by over 1,000 clients, LAC runs Japan's largest security operations centre, processing 2.5 billion logs daily.

## Online Course Mapping

### Security Awareness Training / For General Public/Staff

A basic cybersecurity awareness programme provided digitally to the general public at no cost.

**Online + Hands On:**  
N/A

**Online Only:**  
Free  
90 Minutes

### Specialisation Training

Built upon existing knowledge and expertise through a focused track of courses.

#### Foundational Series / For Cybersecurity Novice

##### Cybersecurity Capacity Building (Basic)

A prerequisite course providing the foundation for other specialisation courses.

**Online + Hands On:**  
S\$1000  
40 Hours

**Online Only:**  
S\$480  
15 Hours

##### Security Engineer Expert

Minimise the risk of a cybersecurity attack by securing IT infrastructure.

**Online + Hands On:**  
S\$1250  
20 Hours

**Online Only:**  
S\$600  
10 Hours

##### Finding Malware

Understand the initial response techniques to identify and stop malware.

**Online + Hands On:**  
S\$100\*\*  
8 Hours

**Online Only:**  
N/A

\*\*usual price S\$300

#### Expert Series / For Cybersecurity Expert Aspirant/Staff

##### Incident Handler

Conduct initial incident investigations, find out impact and coordinate response.

**Online + Hands On:**  
S\$1250  
25 Hours

**Online Only:**  
S\$600  
8 Hours

##### Network Forensic Specialist

Analyse logs to identify suspicious communications within a network.

**Online + Hands On:**  
S\$1250  
20 Hours

**Online Only:**  
S\$600  
7 Hours

##### Threat Hunter

Adapt threat information into existing fortifying IT architecture.

**Online + Hands On:**  
S\$1500  
30 Hours

**Online Only:**  
S\$720  
15 Hours

##### SOC Analyst Expert

Correlate multiple log sources, identify sign of attacks and place catered detection rules.

**Online + Hands On:**  
S\$1500  
40 Hours

**Online Only:**  
S\$720  
20 Hours

#### "Capture the Flag" Security Workouts (Foundational / Expert Series) / For Cybersecurity Expert

Trainees and experts alike can test their knowledge with strategically-designed series of challenges.

**Online Workout 10:**  
S\$2410  
1 Month

**Online Workout 30:**  
S\$7229  
2 Month
