

Enhancing Digital Security

Threat Hunter

Overview

A wide knowledge of cybersecurity issues is critical to keep up with ever-growing threats.

Understanding existing threats is not sufficient; sophisticated cyber threats that are not able to be detected and contained are being developed everyday. This course will offers techniques to accumulate threat information for preventive and defence tactics and adapt them to existing IT architecture in order to detect and prevent existing and potential attacks.

Learning Objectives

Through this course, you will learn the following:

Threat information gathering and optimisation

Deep correlational and artifact analysis

Verifying vulnerabilities and malware analysis

Fee:
Online + Hands-On: S\$1500
Online Only: S\$720

Duration:
Online + Hands-On: 30 Hours
Online Only: 15 Hours

Who Should Attend?:

- Completed Cybersecurity Capacity Building (Basic)
- Security engineers with 5 years+ experience
- Future cybersecurity experts
